Data Flow

EASIER
Order Processing

SMARTER
Insights from Accurate Data

INTEGRATE YOUR JOOR ACCOUNT WITH GENCOM

Gencom offers a total solution, from software to hardware as well as omni-channel connections. Gencom can easily and quickly connect their software to JOOR to provide a seamless way to send your product data to JOOR and import orders. With this connection, Gencom makes sure that you are always available to your customer.

With a JOOR-Gencom integration, you can:

- **Automatically Sync Your Data Between Gencom and JOOR**
  - Customer data, style data (including linesheets and images) automatically transfer from Gencom to JOOR.
  - Order data automatically transfers from JOOR to Gencom.
- **Receive Frequent Data Updates**
  - Most data is updated in near real-time via manual trigger or on a schedule.
- **Set Up Quickly and Easily!**
  - Simply schedule your integration within the Gencom dashboard.
  - Sync data seamlessly (Gencom data fields are already mapped to JOOR's data fields).
  - User guide with step-by-step instructions.
  - Dedicated support from JOOR Integrations and your Customer Success Manager.

GenCom.
